

MATERIAL SAFETY DATA SHEET

Revision: 1

Revision date: 27 October 2003

1- Identification and Substance and Supplier

Product name: Limestone Aggregates
Product description: Magnesium Limestone
Supplier: Yorkshire Roadstone
Lightwater Quarries Ltd
Potgate Quarry
North Stainley
Ripon
North Yorkshire
HG4 3JN
Phone 01765 635436 Fax 01765 635413

2- Composition / Ingredients Information

Description: Naturally occurring product of calcium and magnesium carbonates with traces of impurities
Hazardous ingredients: None

3- Hazard Information

Inhalation: The main hazard associated with natural aggregates, is the inhalation of respirable dust. Prolonged periods of inhalation can be harmful to health.
Contact with eyes: May cause transient irritation to the eyes, especially in dusty environments.
Skin contact: May cause irritation. Prolonged or repeated contact may cause drying of the skin giving rise to dermatitis.
Ingestion: Not harmful.

4- First Aid Measures

Inhalation: Remove the person to fresh air and seek medical attention if required.
Eye contact: Rinse immediately with clean water or sterile liquid. Seek medical attention if irritation continues.
Skin: Contaminated skin should be washed with clean water as soon as possible. Seek medical attention if irritation occurs.
Ingestion: If ingestion occurs remove the person from exposure and seek medical attention if required.

5- Fire fighting Measures

This product is not flammable

6- Accidental Release Measure

Spillages: Cleaning up measures should avoid the generation of airborne dust.
Damp down with water before cleaning starts, wear suitable dust masks if required, be aware possible wind whipping. Avoid breathing in airborne dust. If possible use a vacuum.
