

Lightwater Quarries Ltd

CONCRETE4U

Quality Policy

Our quality policy is to:

Provide high quality, on time concrete and aggregates to our varied customer base.

Provide a service with quality and value to our customer that is second to none.

To achieve these aims, for concrete we use a management system to ISO 9001 and quality assurance regulations, for aggregates we use independent 3rd party testing to BS EN 12620 and BS EN 13242.

All our employees ensure that this process filters down to our customers; to provide them with what they need and when they need it

General Manager

A handwritten signature in black ink, appearing to read 'K. Crofts'.
